

# BRT

Quality & Innovative  
Fire & Rescue Equipment

## Features:

- **Flame Resistant:** to 426°C, resists continuous heat to 121°C and improves in strength down to -15°C.
- **Strength:** NUPLAGLAS® HANDLES are stronger than wood handles.
- **Safety:** Safe from electrical shock. Smooth surface protects user from splinters.
- **Durability:** Does not absorb moisture, resists chemicals. Easily cleaned.
- **Comfort:** Does not conduct heat/cold. Easy to handle. Ergonomically designed.

## Portable Modular System

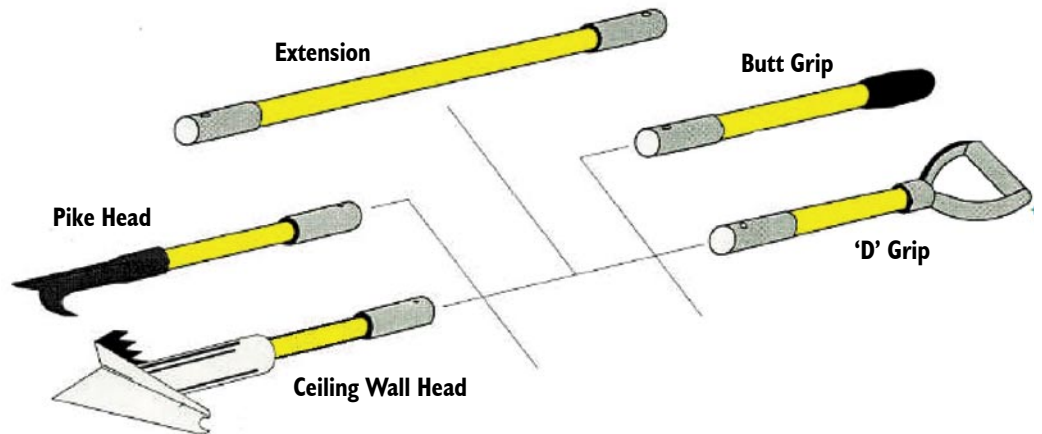

- Handles and Poles can be custom made to length.
- Start with one tool and add attachments later.
- Breaks down to one easy to handle bundle.
- Optional lightweight Canvas Carry Bag.
- Can be made to fit inside standard locker compartments.
